

Innovative Solutions for Complex Facilities Challenges

Havel provides single-source solutions that meet a wide variety of facility design, installation, operation, and maintenance requirements. Since 1951, Havel's team of facility experts has learned to anticipate operational needs, identify new technology trends, and provide mechanical, electrical, building automation systems and energy services.

Services

Havel self-performs virtually all services, enabling us to provide high quality workmanship, cost containment, and efficient workflow. This helps Havel provide creative and unique customer solutions from a single, responsible source.
