

MECHANICAL SERVICES

Mechanical Services for Your Most Complex Building Systems

Havel
An EMCOR Company

The Havel team has the skills and expertise to meet all your mechanical, electrical, and plumbing (MEP) service needs, while providing the utmost in quality and professionalism.

Our vast experience working with complex mechanical and HVAC systems enables us to apply “best practice” construction techniques across a diverse range of projects, from service calls and system maintenance to new building construction.

Superior Solutions from Skilled Professionals

When you hire Havel for mechanical construction and service, you partner with licensed industry specialists who are well versed in regulatory restrictions, labor laws/conditions, and today's most sophisticated equipment. We have refined and sharpened our design and implementation processes to help us consistently deliver innovative mechanical solutions and outstanding results.

Exceptional Safety Comes Standard

Additionally, Havel is steadfastly committed to the safety, health, and well-being of our employees. This commitment extends to our clients and other contractors we meet in the field. Our technicians follow our rigorous safety program to help maintain exceptional safety performance while working under complex and demanding conditions.

Havel's team of fully licensed mechanical specialists is ready to assist you with all your mechanical construction and service needs.
